Discussion Items

DISCUSSION ITEM

Title:

Surveys

Presenter:

We handed out surveys to the members to have them fill out. These surveys will also be handed out Friday at the Project Meeting for those who were unable to attend the General Meeting.

If you did not get a surve, please email us and we will get you one.

DISCUSSION ITEM

Title:

Project

Presenter:

The December trip has been postponed due to the Cholera, elections, riots, and the Dominican Republic closing its borders. We will now focus our efforts to traveling in May.

Presenter:

ASME Fundraiser with the Amway Center

ASME's Vice Chair was in attendance at our meeting. Some of our members have been helping out with the Amway fundraising. Our parent organizations are affiliated so we should try to work together.

If you would like to help with the Amway fundraising, please visit the fundraising section of ASME's website.

Recruiting for Leadership Roles

Some of our officers will be graduating soon. This means that we will need other members to fill in these positions, once the current officer graduates. If you are interested in becoming more involved with EWB, please talk to one of the officers! Someone is almost always in the office in Engineering I, Room 144.

Professional/Professor Panel for E-Week

During E-Week in February, we will be hosting a panel. We tossed around a bunch of ideas and decided that the topic should be how engineers can use the skills and knowledge that they've acquired to have a positive impact on the world. We came up with a title of "Engineering a better world". We should have a moderator who has a set of questions that should be asked, but also have a system where people can text questions to the moderator/assistant that they would like to have asked.
